| 6-Apr | 6:00-7:00 AM | Liquid Biopsies             | EFIRM Liquid Biopsy                                                                | David T.W. Wong DMD, DMSc  
Associate Dean of Research and Director of the  
Oral/Head and Neck Oncology Research Center,  
UCLA                                                                                                                  |
| 6-Apr | 7:30-8:30 AM | Precision medicine in Oncology | Keynote Speaker: Recent Progress in Predictive Biomarker Testing in Oncology       | John W Longshore, Ph.D., FACMG  
Director of Molecular Pathology, Carolinas Pathology Group                                                           |
| 6-Apr | 9:00-10:00 AM |                            | Liquid biopsy and NGS: moving from sample to insight                                | Raed Samara, PhD  
Senior Global Product Manager, QIAGEN                                                                                   |
| 6-Apr | 10:30-11:30 AM | Regulations in Molecular Diagnostics Clinical Laboratory Testing | 2016 and Beyond: Reimbursement and Regulatory Lessons for Another Year             | Rina Wolf, MHA  
VP Commercialization Strategies, Consulting & Industry Affairs, XIFIN, Inc.                                           |
| 6-Apr | 11:00-12:00 PM  | Microbiome Biomarker Discovery for Diagnostic and Therapeutic Applications | 2016 and Beyond: Reimbursement and Regulatory Lessons for Another Year             | Todd DeSantis  
Director of Bioinformatics, Second Genome, Inc.                                                                     |
| 6-Apr | 1:00-2:00 PM | Liquid Biopsies             | The application of molecular diagnostics to stained cytology smears                 | Maja Oktay, MD, PhD  
Associate Professor of Pathology, Albert Einstein College of Medicine  
Sumanta Goswami, PhD  
Associate Professor of Biology, Albert Einstein College of Medicine                                                   |
| 6-Apr | 1:30-2:30 PM | Inherited Genetic Disorders and Prenatal Applications in Modern Medicine | Validation and Implementation of Whole-Exome Sequencing to Guide Precision Cancer Care | Hanna Rennert, PhD, F.A.C.M.G  
Assistant Professor of Pathology and Laboratory Medicine, Weill Medical College of Cornell University                |
| 7-Apr | 6:00-7:00 AM | Personized Medicine        | Ligand-Targeted Therapies for Cancer and Autoimmune Diseases                      | Philip S. Low, PhD  
Director of the Purdue Center for Drug Discovery  
Ralph C. Corley Distinguished Professor  
Department of Chemistry, Purdue University                                                                          |
| 7-Apr | 7:30-8:30 AM |                              | Evidence Required by FDA for Establishing Clinical Validity                          | Alberto Gutierrez, PhD  
Director, Office of In Vitro Diagnostics, CDRH                                                                      |
