| 18-Mar | 6:00-7:00 AM     | Psychiatric    | Keynote - Dopamine System Dysregulation in the Pathophysiology of Schizophrenia and Depression | Anthony Grace, PhD  
Distinguished Professor of Neuroscience, Professor of Psychiatry and Psychology Department of Neuroscience, University of Pittsburgh |
| 18-Mar | 7:30-8:30 AM     | Anatomy        | Special Lecturer - Circuits of Reward/Motivation and Decisions: Linking Connectivity to Function and Disease | Suzanne Haber, PhD  
Professor, Department of Pharmacology and Physiology, University of Rochester School of Medicine and Dentistry |
| 18-Mar | 9:00-10:00 AM    | Techniques     | Special Lecturer - DREADD2.0: an Enhanced Chemogenetic Toolkit                        | Bryan L. Roth, MD, PhD  
Director, NIMH Psychoactive Drug Screening Program, Michael Hooker Chair Protein Therapeutics, Professor of Pharmacology, UNC Chapel Hill Medical School Chapel Hill |
| 18-Mar | 10:30-11:30 AM   | Psychiatric    | Special Lecturer - Oxidative Stress in Schizophrenia: a Translational Approach       | Kim Quang Do, PhD  
Professor, Center for Psychiatric Neuroscience, Lausanne University Hospital |
| 18-Mar | 12:00-1:00 PM    | Psychiatric    | Keynote - Psychosis as a Learning and Memory Disorder                                | Carol Tamminga, MD  
McKenzie Foundation Chair in Psychiatry; Distinguished Chair in Psychiatric Research, Chair in Brain Science, Professor, UT Southwestern Medical Center |
| 18-Mar | 1:30-2:30 PM     | Chemical       | Featured Speaker - Messengers of the Mind                                            | Floyd E. Bloom, M.D.  
Professor Emeritus, The Scripps Research Institute |
| 18-Mar | 3:00-4:00 PM     | Neurobiology   | The Human Connectome Project                                                        | David Van Essen, PhD  
Professor of Anatomy and Neurobiology, Washington University School of Medicine |
| 19-Mar | 6:00-7:00 AM     | Emerging       | Nobel Prize Winner presents: Clinical Studies of a Candidate Drug (OSU6162) Capable of Alleviating Dysregulation of the Dopaminergic System | Arvid Carlsson, MD, PhD  
Swedish Pharmacologist, Nobel Prize Winner |
| 19-Mar | 7:30-8:30 AM     | Psychiatric    | Keynote - The Environmental Causes of Schizophrenia - Developmental Hazards, Social Defeat, and Drug Abuse | Sir Robin Murray, PhD  
Professor of Psychiatric Research, Institute of Psychiatry, King's College London |
| 19-Mar | 9:00-10:00 AM    | Translational  | Keynote - Impulsivity and Compulsivity: Neural Substrates and Neuropsychiatric Implications | Trevor Robbins, CBE FRS FMedSci FBPsS  
Head of Department of Psychology, Professor of Cognitive Neuroscience, University of Cambridge |
| 19-Mar | 10:30-11:30 AM   | Imaging        | Special Lecturer - In Vivo PET /SPECT Imaging of Human Brain Neuroreceptor Systems: 3 Decades of Progress | Dean Wong, MD, PhD  
Radiology Vice Chair for Research Administration and Training, Professor of Radiology and Radiological Science, Johns Hopkins University School of Medicine |
