

Cell & Gene Therapy

October 15, 2025
VIRTUAL EVENT SERIES

Date	Time	Track	Presentation Title	Speaker
15-Oct	07:30 - 08:30 AM	Emerging Therapeutic Modalities: Current Practices, Challenges, Novel Solutions	Keynote Presentation: CRISPR Meets iPSCs: Powering the New Wave of Biomedical Discovery	Dr. Pia Johansson Director of the Cell and Gene Technologies Core (CAGT core) at Lund Stem cell Centre at Lund University
15-Oct	09:00 - 10:00 AM	Emerging Therapeutic Modalities: Current Practices, Challenges, Novel Solutions	Keynote Presentation: Outsmarting the Escape Artist: Resistance in CAR T-Cell Therapy for Hematologic Cancers w/ Live Q&A	Marco Ruella, MD Associate Professor of Medicine; Scientific Director, Lymphoma Program; University of Pennsylvania
15-Oct	12:00 - 01:00 PM		Networking Hour	Join Us for Networking Opportunities!
15-Oct	On Demand	Emerging Therapeutic Modalities: Current Practices, Challenges, Novel Solutions	Efficient base editing in cystic fibrosis airway epithelial cells	Ashley Cooney, PhD Assistant Professor, The University of Iowa
15-Oct	On Demand	Development of Cell and Gene Therapies to Treat, Prevent, and Potentially Cure Diseases	Phase 1 studies of CD19 CAR-T cell immunotherapy for large B cell lymphoma.	Cameron Turtle, MBBS, PhD, FRACP, FRCPA Professor and CLEARbridge Chair in Cancer Immunotherapy, University of Sydney
15-Oct	On Demand	Emerging Therapeutic Modalities: Current Practices, Challenges, Novel Solutions	When good cells go bad: Causes and consequences of aneuploidy in human pluripotent stem cells	Ivana Barbaric, DPhil Professor of Stem Cell Biology, The University of Sheffield
